

Vishal Kumar Gupta

Ghaziabad, India | vishalkgupta34@gmail.com | +91-8882804354 | Portfolio | GitHub | LinkedIn

Summary

Software Engineer with experience in building and scaling production-grade web and mobile applications using MERN Stack, React Native, and cloud-native technologies. Skilled in backend architecture, real-time systems, AWS infrastructure management, DevOps, and performance optimization. Experienced in building chat systems, audio/video calling, live streaming infrastructure, payment gateway integrations, and high-traffic scalable systems handling 1.5L+ users.

Skills

- **Frontend:** React.js, React Native, Next.js, Redux, Recoil, Tailwind CSS, Material UI
- **Backend:** Node.js, Express.js, TypeScript, REST APIs, WebSockets, Prisma, Authentication, Payment Gateway Integrations
- **Database:** PostgreSQL, MongoDB, MySQL, Redis
- **Cloud DevOps:** AWS (EC2, RDS, S3, CloudFront, CloudWatch), Docker, Kubernetes, Nginx, CI/CD, Load Balancing, Auto Scaling
- **Realtime Systems:** LiveKit, RTC Infrastructure, Live Streaming, Chat Systems, Media Handling
- **Tools:** Git, GitHub, Postman, Swagger, VS Code
- **Languages:** JavaScript, TypeScript, Java, C++, Python

Work Experience

Software Engineer, Insanger Pvt Ltd, Noida

May 2025 – Present

- Designed and developed production-grade RESTful APIs using Node.js, Express, TypeScript, PostgreSQL, Prisma, and MongoDB.
- Built and optimized real-time systems including chat applications, audio/video calling, live streaming, and RTC infrastructure using LiveKit.
- Managed and scaled AWS infrastructure using EC2, RDS, S3, CloudFront, and CloudWatch with focus on reliability and cost optimization.
- Implemented Load Balancing, Auto Scaling, SSL setup, monitoring, and production deployment workflows.
- Integrated payment gateways including PayU, ePay, UPI Gateway, and intent-based payment systems.
- Worked on React.js and React Native applications with focus on scalability and performance optimization.
- Configured Dockerized deployments, Redis caching, Nginx servers, Kubernetes workflows, and CI/CD pipelines.
- Optimized backend systems and database architecture to support high-traffic applications handling 1.5L+ users.

Full Stack Developer, Afylet Marketing Technology Pvt Ltd

Jul 2024 – Oct 2024

- Built and deployed full-stack web applications and Shopify plugin apps.
- Developed Shopify apps using Remix, GraphQL, Hasura, and Nhost.
- Designed customizable UI systems for Shopify store owners.
- Integrated recurring payment and billing functionality.
- Worked on API integrations, backend development, and database optimization.

Projects

Blogify - Blog Platform

- Developed a full-stack blog platform using React, Node.js, and PostgreSQL.
- Implemented JWT authentication, role-based dashboards, and Cloudinary media uploads.
- Built responsive UI using Tailwind CSS and integrated email notification systems.
- **Tech Stack:** React, Node.js, PostgreSQL, Tailwind CSS, JWT, Cloudinary

Simp - Digital Wallet

- Built a payment wallet application with secure transaction workflows.
- Implemented JWT authentication and user search functionalities.
- Developed secure money transfer validations and transaction systems.
- **Tech Stack:** React, Node.js, MongoDB, Tailwind CSS, JWT

Education

Master of Computer Applications, ABES Engineering College	2024 – 2026
Bachelor of Science in Computer Science, University of Delhi	2020 – 2023

Achievements

- Winner - Tech Fusion Innovators Challenge (2024)
- Successfully built and scaled production infrastructure supporting 1.5L+ users.
- Engineered and deployed scalable real-time communication and live streaming infrastructure using LiveKit.
- Optimized AWS infrastructure for scalability, reliability, and cloud cost efficiency.
